The Herald's correspondent at Lakewoogh telegraphs; "I am informed that there will be a determined effort this week to secure the adoption of a proposed compromise bill, drawn up at a recent meeting in Carlisles Washington home, which is designed to please both the friends and opponents of the silver coinage. The Drain of Gold.

A feeling of confidence pervades the Treasury Department. So far as known only \$350,000 in gold has been engaged from the Sub Treasury it New York, for shipment to-morrow. Treasurer Nebecker, speaking of the drain of gold that has been going on the past year or more, said it was largely the work of speculators on the New York Stock Exchange. The Drain of Gold.

in the country.

The scheme miscarried in some respects. in the country.
The scheme miscarried in some respects. The farmers did not obey the commands of the circular. But the Russian famine and the short crops in India created a foreign demand for wheat which enabled the Pilsbury-Washborn anti-option crowd to get out of their tight place at a profit.
The story is a simple one, but has its lesson. It shows the utter fraud and supreme hypocrisy of the rilling combine who claim to be friends of the farmers, but who betray the farmers at every opportunity and by every scheme which they find practicable. The Anti-Option bill is as palpable a rascality for dishonest speculative purposes as the "Hold Your Whent" circular. It is a device of knavery which purports to be in the interest of the farmers, while its object is, and its effects will be, if it becomes a law, to that the farmer out of the commercial market and leave him at the mercy of the millers and shippers, who would take his grain at their own price at such time or limes as they could get at the lowest price.—Chicago Herald.

SKETCH OF HIS CAREER. Struggle of the Bonnuza King from Poverty to Affluence.

John William Mackay was born in Dublin, Ireland, Nov. 28, 1831, and in conse-sequence is in the 62d year of his age. He came from sturdy Scotch-Irish stock, a fact which made itself plain in the success which crowned his later efforts to win recognition from Dame Fortune. In 1840 his parents came to America and as a matter of course he came with them. A matter of course he came with them.
